ANGELO

Concrete Work Ltd.

For over 35 years, Angelo Scozzafava has created and manufactured quality garden decor products from stone using the talents and the old world traditions learned in his native Italy. He knows that today's consumer still wants quality, as well as variety, simplicity, and value.

The Angelo business has seen "three generations" of his family responding to this demand with a wide range of designs manufactured right here in Edmonton, Alberta and sold across Canada.

A corner stone of the Angelo legacy is standing behind the products he sells. His family hopes you will enjoy viewing the many styles of this catalogue to help you choose your product with hopes that it will provide you and your family with years of enjoyment in your home and garden.

Angelo would also like to invite you to visit his Tile Show Room. He is now selling an assorted selection of ceramic marble and granite tile as well as a great selection of natural stone.
